ABSTRACT:

The stand supports sports equipment, such as tennis rackets and balls, and is intended to be positioned at the side of a tennis court. The stand has two pairs of legs (1, 2, 3, 4) connected by an upper cross-member (6). These legs support two shelves (9, 10) which can be folded upwards as the legs (1, 2) and (3, 4) are folded together so that the stand occupies very little space and several stands can be stacked one upon another for convenient storage when not in use. USE - Stand for tennis equipment.
